

reveal no cases of deliberate violations of the blackout regulations. Most of the few lights that were showing were caused by interior lighting in buildings in attempts to darken the windows had not been entirely successful.

#### No Prosecutions

These few cases, in which light seeped thru the windows, were not sufficient to warrant prosecution. In all of these instances, as well as in others where lights were forgotten, the conditions were corrected as soon as attention was called to them. The occupants of these buildings will be sent letters warning them to take necessary steps to prevent any recurrence of such conditions in the future.

"In behalf of the local air raid organization, I wish to thank the residents of Aurora and those who actively assisted in the blackout, for their outstanding cooperation."

Police officers on duty last night reported that they had encountered no difficulty. Lights were generally extinguished within a matter of seconds after the three minute "lights out" signal was sounded by sirens and factory whistles at 10 o'clock and they remained out until the two minute "all clear" signal was given 20 minutes later.

Motorists, in compliance with blackout regulations, stopped immediately at the curbing and extinguished their lights. There were a few lights shown by cars entering the city, but these too were quickly extinguished. The only moving car on the streets reported

## Warmer Weather Tonight, Friday

The weather forecast for Chicago and vicinity; Somewhat warmer tonight and Friday forenoon.

For Illinois; Warmer tonight in east and

Three fatalities, two caused by railroad trains and the third the result of the accidental discharge of a rifle, attributable in part at least to the blackout, were reported in this area last night and this morning.

Oscar Henry Lindstrom, 55, of Wyoming, Illinois, died at Copley hospital at 11:25 o'clock this morning as a result of injuries received shortly before the blackout last night when he walked in front of a Chicago, Milwaukee and St. Paul train at the crossing in route 30, three miles west of Aurora.

The second railroad accident occurred about 9:25 o'clock this morning when Andrew W. Boberg, 29, of 29 South Aberdeen street, Chicago, was killed by a Chicago and Northwestern freight train about a mile east of the County Farm road and west of Wheaton. It was not immediately determined whether or not Boberg, whose body was found by Jesus Garcia, a section hand, was in the employ of the railroad. A card in his pocket revealed that he had received unemployment compensation, the last time on July 9.

The single blackout fatality resulted in the death of Lee Hann, 32, owner of a farm about 10 miles east of Elgin. Hann, it was reported by DuPage county officials, was killed during the blackout when a .22 calibre target rifle, which he had leaned against the running board of a friend's automobile, toppled over and was accidentally discharged.

The accident in which Lindstrom was fatally injured was witnessed by Leon Nashleans, a truck driver from Sioux City, Ia. Nashleans stated that he had stopped his machine while waiting for the train to pass and that Lindstrom, apparently neither hearing or seeing

cause in our opinion this tax bill, if passed in its present form, will probably end its existence. I say this with all seriousness."

Bowman testified he had been urged by members of the senate defense investigating committee to protest against provisions of the revenue measure. He said that because Boeing had suffered heavy losses during the base period of 1936-39 while it was developing the flying fortress and other craft, and because it could claim only a low invested capital credit 96.6 per cent of its net income would be subjected to the proposed 90 per cent excess profits tax.

### Win Army, Navy Awards

"It is curious that I should be here to plead for the life of this company at a time when in Seattle the company and its employes are being given the army-navy production efficiency award," Bowman said.

the train, had walked in front of the engine. He was thrown 20 feet, landing in a ditch.

The injured man was taken to Copley hospital where he was found to be suffering from severe lacerations of the face, a broken rib and a possible fracture of his pelvis.

Attempts are being made by the sheriff's office and hospital authorities to locate Lindstrom's relatives. Identification papers found on his person failed to provide any information as to his family, revealing only that his home was at Wyoming, Illinois.

Following his death, the body was removed to the Healy chapel where an inquest was to be held this afternoon under the direction of Coroner L. Victor Peterson, of Elgin.

## Relatives of Man Killed by Train Sought

No trace has as yet been found of the relatives of Oscar Henry Lindstrom, about 44, who was fatally injured Wednesday night when he stepped in front of an eastbound freight train of the Chicago, Milwaukee, St. Paul & Pacific railroad at the crossing in route 30, about three miles west of Aurora.

An alien registration card found on Lindstrom's person revealed that he was a citizen of Sweden and gave his home address as 309 Vine street, Albert Lea, Minn. A selective service registration card, issued February 16, gave his address as Wyoming, Ill. Queries have been sent to home communities.

A verdict of accidental death was returned at an inquest held yesterday afternoon at the Healy chapel under the direction of Coroner L. Victor Peterson of Elgin. Deputy Sheriff Walter Honert, who investigated the accident and who was the only witness present, stated that he had been informed by Leon Nashleanax, a truck driver from Sioux City, Ia., that he had been driving west and had stopped for the freight train when Lindstrom, walking east along the south side of the pavement, had stepped in front of the locomotive. The train was traveling about 20 miles an hour at the time.

Lindstrom, who suffered a punctured lung and other injuries, died at Copley hospital at 11:24 o'clock yesterday morning.

ned say it was, this would not have been recognized as a city by anyone from the air. What scattered lights could be seen could have been mistaken for lighted farm houses."

#### Sees No Lights

Similarly glowing reports were given by Jack Snowden and Leonard J. Applequist, official observers for the local air raid organization. Snowden added that, during the entire 30 minute period, he had not been able to see the glow of a single cigaret or the lighting of a match.

Paul Gibson, chairman of the Aurora civil protection committee, today commended the residents of this community for their outstanding cooperation.

"The reports of the block, precinct and ward wardens," he said, "reveal no cases of deliberate violations of the blackout regulations. Most of the few lights that were showing were caused by interior lighting in buildings where attempts to darken the windows had not been entirely successful.
